Medical aesthetics. Regenerative science.

AEON RENOVA is a physician-led clinic in development at Centuria Medical Makati. Our planned opening focus is medical aesthetics, with programs in preventive care, longevity and regenerative medicine in development.

Room 2020 · Centuria Medical Makati

Meet the doctors

Dr. Carlos T. Santos

Medical team lead

Dr. Santos earned his Doctor of Medicine (1987) and BS in Medical Technology (1983) from the University of Santo Tomas.

Quezon City General Hospital certificates document residency training in ophthalmology and otorhinolaryngology from 1997 to 2000.

His CV lists regenerative healthcare experience at Castle Rock in 2024 and identifies him as Medical Director of Castle Rock Regenerative Health Care Philippines and co-founder of Metro Pangasinan Hospital and Medical Center.

Selected training and certificates

American Academy of Integrative Cell Therapy

Certificate of Completion in Fundamentals of Stem Cell Practice & Advanced Cell Therapy Protocols, issued January 18, 2025.

Aesthetic Medicine Institute of the Philippines

Level I Certificate Course and Level II Diploma Course in Aesthetic Medicine, 2026.

Philippine Society for Orthomolecular Medicine

Certificate for Advanced IV Nutrition, Peptides and Polynucleotides, 2025.

Dr. Aristotle “Butch” Tandingco

Dr. Harvey Royce Ogalino

Dr. Capella Manalang Guelbuena

Care at AEON RENOVA

Medical aesthetics

Planned opening focus

AEON Skin Ritual

Clinical skin care and selected superficial peels.

AEON Sculpt

Selected botulinum toxin and dermal filler treatments.

AEON Lumina

Planned device-based care for selected skin concerns.

AEON Lift

Planned device-based skin tightening.

AEON Follicle

Hair and scalp assessment to guide next steps.

The opening menu depends on clinical readiness, including products and equipment.

Longevity and wellness

Programs in development

Preventive health

Physician-led assessment and screening as appropriate, with guidance on nutrition, physical activity and sleep.

Weight and metabolic health

Individual assessment and planning for weight and metabolic health concerns.

Men’s health

Confidential assessment for concerns about energy, weight and sexual wellbeing.

Women’s health

Assessment and referral planning, including perimenopause and menopause.

Also under evaluation are AEON Silhouette body contouring, AEON Restore surgical aesthetics consultation, and selected IV nutrition and hydration services.

Stem cell science

Program in development

AEON RENOVA is evaluating a future stem cell program. Stem cell therapy is currently unavailable at AEON RENOVA.

Future availability depends on Philippine Department of Health facility accreditation and applicable Philippine FDA requirements. The regulatory framework covers human stem cell and cellular therapies.

Target opening December 8, 2026, subject to completion of permits and opening requirements.

Open directions

What to expect at a consultation

Discuss your goals, concerns and medical history with your physician.

Review suitable options, including benefits, risks, alternatives and costs.

Ask about recovery and the follow-up plan before deciding.
